

# Obsolescence Notice

Dear Colleagues,

Datalogic announces the AXIOM / AXIOM-X and DS8100A / DX8200A will be discontinued and declared obsolete starting **June 30<sup>th</sup>, 2018**.

They are replaced by the new **8K10 Series (DS8110 and DX8210)**, the latest generation of high performance long range bar code readers.

8KA Series	AXIOM Series		NEW 8K10 Series
 <p>DS8100A</p>	 <p>AXIOM</p>		 <p>DS8110</p>
 <p>DX8200A</p>	 <p>AXIOM-X</p>		 <p>DX8210</p>

Shown below is the complete list of discontinued models and accessories.

DS8100A	
Order Number	Description
932402742	DS8100A-3030, VERY HIGH RES, LINEAR

## NEW 8K10 Family

The 8K10 series encompass the linear scanner DS8110 and the omnidirectional scanner DX8210, both high performance bar code readers designed by Datalogic to offer top reading performance, exclusive benefits and unique features to End-Users and System Integrators specializing in the Transport and Logistic market segment.

The new DS8110 and DX8210 models combine state-of-the-art technology with more than 30 years of experience in Parcel Sorting applications and Airport baggage handling. They offer leading-edge capabilities such as:

Top 10 features of new 8K10 Family:

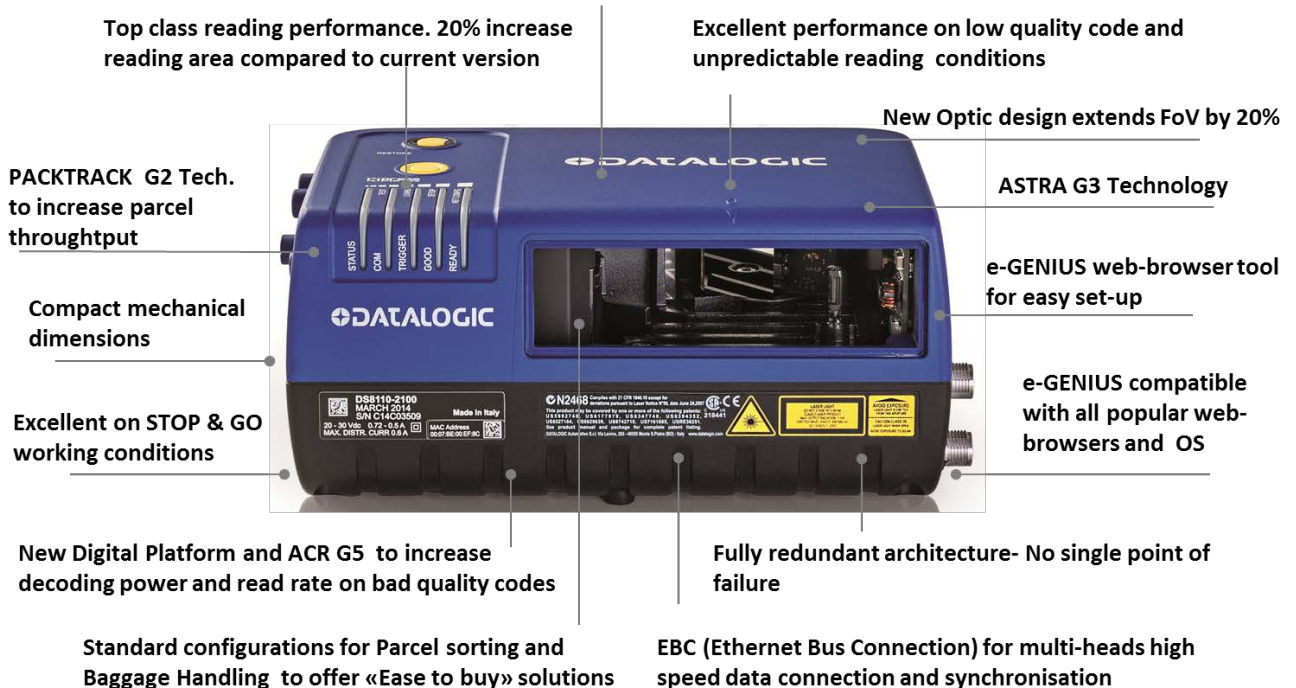

- ***Excellent Reading performance***
  - 20% increased reading area (DOF @ FOV)
  - Constant performance at any working conditions
- ***ALL-IN-ONE omnidirectional reader***
  - DX8210 is easy to install
  - Perfect on standardized solutions
- ***DST – Digital Signal Technology***
  - Cutting-edge technology developed by Datalogic increases the optical performance of a laser diode by 50%
- ***ASTRA G3 technology:***
  - Multi-laser optic architecture
  - Improved performance on codes under plastic films
  - Excellent reading on low quality codes and uncontrolled label location/orientation

- **PACKTRACK G2**
  - Increased performance and read rates on mass flow production conveyor applications
- **EBC – Ethernet Bus Connection**
  - High speed data transmission and real time synchronization for multi-head tunnels
  - Easy to connect and network automatic set up
- **Redundant Bus Configuration**
  - No single point of failure with intrinsic redundancy for all components of the system
  - Meets requirements for applications requiring 24x7 system availability
- **e-GENIUS**
  - Web browser based configuration tools
  - Compatible with all web browsers and Operating Systems (Windows, Apple OS, Linux)
  - Ease setup and diagnostics with a Tablet or Smartphone
- **Advanced Code Reconstruction G5 (ACR)**
  - New version of the Advanced Code Reconstruction algorithm with improvements on bad quality labels and/or damaged codes
- **Compact Size**
  - DS8110 is 30% more compact and lightweight versus the DS8100 for easier installation and replacement

### DS8110 at Glance

**Innovative and breakthrough technology : DST Signal Digital Tech.  
Boost (x2) optic performance of a single laser diode.**

## DX8210 at Glance

**Innovative and breakthrough technology : DST Signal Digital Tech.  
Boost (x2) optic performance of a single laser diode.**

### Last Purchase Orders

Last purchase orders for DS8100A, DX8200A, AXIOM and AXIOM-X must be entered before **June 30, 2018**. Delivery time will be confirmed at receipt of the specific order. Since some hardware components could not be longer available, Datalogic reserves the right to refuse Purchase Orders when the stock is exhausted. New software features additions and customization of software will end on **December 31, 2016**. Normal SW maintenance will continue through the End of Life of the products.

### Repair Policy

The discontinued models will be repaired for a period of 5 years starting at the obsolescence date and it will end on **December 31, 2023**.
