

MEMOR™ X3 AND LYNX™ MODIFIED IN-THE-BOX CONTENT

Overview

In consideration of the environment, Datalogic is taking initiatives in order to reduce waste and its impact, by adopting a Green policy for our products and their box content.

- **For the Memor X3 product line:** starting mid-January of 2017, the USB cable will be removed from the box for all the Wi-Fi models (since the USB communication is seldom used in Wi-Fi configurations and typically the USB cable gets thrown away). The USB cable will be preserved instead in the box content of all the Memor X3 Batch models.
- **For the Lynx product line:** starting mid-January of 2017, the USB cable will be removed from the box for all models (Datalogic doesn't offer the Lynx mobile computer in a batch model).

Please note that in case the USB cable is needed, it can be acquired as a separate accessory.

Ordering Information

PART NUMBER	MODEL / DESCRIPTION	LONG DESCRIPTION
94A051968	CABLE, MICROUSB, CLIENT	Cable from Micro USB (device or dock) to USB. Device works as client. 2m straight cable.
